

## **District Nutrition Committee**

With the purposes of monitoring the implementation of the District's wellness policies, evaluating policy progress, serving as a resource to school sites, and revising the policies as necessary, a District-wide nutrition committee is hereby established to develop, implement, monitor and review district-wide nutrition and physical activity policies. The School Board acknowledges that community participation will help with the implementation of the wellness policies.

Following initial development, the committee would meet a minimum of once annually for continued assessment.

Committee membership will consist of:

- District Food Service Coordinator
- Parent representative
- Student representative
- Staff member representative
- Administrative Representative, Co-Chair
- Physical Education and Health Program Leader, Co-Chair

Appointments to the Committee will be made by the Board Chair or designee.

School foodservice staff, at the school or district level, will also ensure compliance with nutrition policies within school foodservice areas and will report on this matter to the superintendent or designee.

The superintendent or designee will develop a summary report every three (3) years on district-wide compliance with the district's established nutrition and physical activity wellness policies based on input from schools within the district. That report will be provided to the school board and may also be distributed to school health councils, parent/teacher organizations, school principals, and school health services personnel in the district.
